

EXAMPLE "SUPPLEMENTAL QUESTIONS" for the A & B tests.

These are only SAMPLE questions & not a COMPLETE list of questions from which the minimum (5 for the A test or 8 for the B test) supplemental questions are asked as part of the test (The questions are usually after a successful flight is completed).

There is now a requirement to be asked questions on 'SWEETS' as part of the pre-flight preparation. Remember that questions on SWEETS may be asked as part of these supplemental questions especially as the last 'S' refers to Site rules!

The answers to the questions do not need to be answered in exact parrot fashion from the relevant publication, but an understanding of the question & a reasonable answer must be given.

Please remember that 5/8 questions is the MINIMUM requirement & more questions may be asked, if necessary.

The questions below have an indication of where the answers may be found, shown below the question in *Italics*.

What type of models can be started in the pits?

Club rules

Can you use a scale metal propeller on a scale model?

BMFA Handbook

If you lose control of an aircraft & it crashes out of sight, who must you inform?

BMFA Handbook

What is the minimum distance to keep the model away from cars passing by the end of the runway?

BMFA Handbook & Club rules

Can you fly a model that weighs 8kg (take-off weight) alone?

Club rules

You are flying a fast model & have a worrying 'near-miss' with a parachutist at an estimated 600' above the flying site. Who must be informed?

BMFA Handbook

Where can you find the number of the Air Accident Investigation Branch (AAIB)?

BMFA Handbook & Club rules

Can someone fly at Langar as a guest if they are not a member of the BMFA?

Club rules
